

INFORMATION FOR GUESTS

Dalesdown is situated in an environmentally sensitive area, so to preserve good relationships with neighbouring farmers please make sure that *everyone* in your party is aware of the following: -

Boundaries

Please ensure that your group are instructed that unless they are on an official outing / walk, on the public footpaths, they must stay within the boundary fences around Dalesdown.

You must not go near the animals in fields or up to the farm.

Because the drive is used at times by farm traffic, for your own safety, please ensure your party walk up and down it in single file, when using it for organised walks.

Please do not allow your group to play on the drive outside the gateway to Dalesdown.

Outside

Please consider and respect the needs of our neighbours by ensuring that all noise is kept to a reasonable level after 10.30pm and that there is no noise outside after 11pm.

Bonfires are to be lit in the designated fire-pit only.

Fireworks, Balloons & Chinese Lanterns

Please note that due to the rural nature of our site and the close proximity of farmland and livestock you are unable to use fireworks or release balloons and Chinese lanterns.

You're welcome to move furniture around but please ensure it is returned to its original location, including putting trestle tables and folding chairs.
